Product Designer and UX Engineer with 5+ years of experience designing digital products across B2B and B2C SaaS platforms. I partner with cross-functional teams from discovery through implementation to create intuitive, scalable experiences that balance user needs, business goals, and technical feasibility.

UX Engineer

Promenade • Nov 2025 – Present

- Lead product design across B2B and B2C SaaS products from discovery through implementation.
- Partner with executive leadership to define product requirements, prioritize features, and present design concepts for approval.
- Create user flows, wireframes, high-fidelity designs, and prototypes using AI-assisted workflows to accelerate iteration.
- Collaborate with engineering to deliver accessible, scalable experiences while balancing technical constraints.
- Refine products through customer feedback, design reviews, QA, and post-launch iteration.

Lead Front End Engineer

Promenade • Jul 2023 – Nov 2025

- Led front end engineering initiatives across customer-facing web platforms.
- Collaborated with design and product teams to deliver accessible, production-ready experiences.
- Mentored developers and led QA efforts to improve quality and delivery.
- Partnered with stakeholders to support product roadmap initiatives and usability improvements.

Front End Engineer

Promenade • Nov 2020 – Jul 2023

- Developed responsive interfaces using modern front end technologies.
- Implemented UX/UI designs with a focus on accessibility and usability.
- Collaborated with designers and stakeholders to continuously improve user experiences.
