Product Designer and UX Engineer with 5+ years of experience designing and building digital products across B2B and B2C SaaS platforms. I lead product work from discovery through implementation, bringing a front-end engineering background to create intuitive, scalable experiences that balance user needs, business goals, and technical feasibility.

UX Engineer

Promenade • Nov 2025 – Present

- Lead product design across B2B and B2C SaaS products from research and discovery through implementation. Partner with executive leadership to define product requirements, prioritize features, and present design concepts for approval.
- Create user flows, wireframes, high-fidelity designs, and interactive prototypes, leveraging AI-assisted development to rapidly test and iterate on product concepts.
- Partner directly with engineering throughout implementation to solve technical constraints and deliver accessible, scalable experiences.
- Refine products through customer feedback, design reviews, QA, and post-launch iteration.

Lead Front End Engineer

Promenade • Jul 2023 – Nov 2025

- Led front-end engineering across customer-facing web platforms using React, TypeScript, JavaScript, HTML, and CSS.
- Partnered with Product and Design to translate product requirements and designs into accessible, production-ready experiences.
- Mentored developers and led QA efforts to improve quality and delivery.
- Partnered with stakeholders to support product roadmap initiatives and usability improvements.

Front End Engineer

Promenade • Nov 2020 – Jul 2023

- Developed responsive interfaces using React, JavaScript, HTML, and CSS.
- Implemented UX/UI designs with a focus on accessibility and usability.
- Collaborated with designers and stakeholders to continuously improve user experiences.

Product Design

Product Design • UX Design • User Research • Wireframing • Prototyping • Design Systems • Accessibility

Design Tools

Figma • FigJam • Adobe Creative Suite

Development

React • TypeScript • JavaScript • HTML • CSS • Tailwind • PHP • AI-assisted prototyping
